## COAST CLIPPINGS.

The Virginia Republicans fired a salute in honor of Strother's nomination.

Sierra valley's paper is to be called the *Leader*, and will begin publication September 8th.

J. W. Mills of New York has been prospecting the Humboldt Queen mine near Rye Patch. He has struck good ore.

The following was the coinage at the Carson mint during the last month: Double eagles, \$70,000; half eagles, \$58,000; standard dollars, \$75,000. Total, \$197,000.

The Boco Mill Company now have a crew of men at work sluicing out their mill pond. So much sickness have accumulated that it interferes with their floating logs and ice.

The Virginia *Enterprise* says that Judge Hires on Thursday registered his 500th vote. He thinks there will not be more than 3,000 votes registered in Storey county this fall.

A disgraceful affair occurred in Carson on Sunday night over a paltry bet of \$9. Mose Catlin and a plasterer named Wm. Stewart had a dispute which culminated in blows. Catlin was so badly beaten about the head that fears are entertained about his recovery.

The body of a man was recently found in the old river bed on the old Salt Lake road, some 30 miles on the other side of Willow Springs, Utah. He is supposed to have been dead about a month, and there is little doubt he perished on the desert for want of water.

The carpenters have commenced tearing down the old round house in Truckee in order to lay their new side tracks. The main building of the new round house is now about completed, and the workmen are at work excavating the turntable. The carpenters will be able to commence work in a few days.

The Roseburg *Platender* says: The jack rabbit, which was unknown in this vicinity a few years ago, is rapidly increasing in numbers, and are likely to become a great pest to gardens and crops. Many have been killed by young sportsmen in this immediate vicinity.

Richard Messenger, a single sawyer for the Pacific Shingle Co. at Camp 16, met with a shocking accident while at work Tuesday morning. While running the saw he got his left hand caught between the wrist and first joints of his fingers, and the flesh was cut clear to the bone, fully half across the hand.

It has been found necessary to suspend all work upon the Panama canal in consequence of the great access of malaria caused by the advent of the rainy season. At this period it is impossible to stir the soil in any way without liberating noxious gases which almost instantly prostrate the strongest men, and no amount of residence has the effect of acclimatizing workmen of any nationality to these deadly emanations.

## THE CANDIDATES.

We imagine that a thorough acquaintance with the tickets of the two parties will satisfy Republicans that their convention did its work well. Enoch Strother is a good man and a pure politician. He has lived a life so correct that even Democratic liars could not find anything to say against his personal character. He will throw an air of intellectuality and a high tone around the State house that it has never known before.

Mr. Laughton is a man of education and high aspirations. He will fill the office of Lieutenant-Governor with the efficiency natural to a man as smart as he, who is still young and hopes for a future.

We do not claim that our Congressman is the ideal statesman, but Mr. Powning is well equipped to do effective work for his State. We believe that a man of his energy and persistence would go into a body like Congress and get more plums out of the pie than two men like George William Curtis. The question is not is he a Chesterfield or is he a Roscoe Conkling, but can he do the work Nevada has to do. This State does not need a man deep in national affairs, but she does want a man who will rustle around in Congress and get the back charges on freight knocked off, and Powning promises to do it.

Judge Leonard's eight years on the Bench speak for him. He is well fitted for the work and is endorsed by all classes.

Mr. Halleck, the Controller, is the only relic of the last administration. His competency is universally conceded, and he will be elected by a great big vote.

George Tufts is a sound man in the Godlike quality of honesty, and his nomination commends the ticket to the people.

J. M. Dormer's fight was a handsome one, and made him friends. He is to canvas the State, and his scholarly appearance, genial manner and handsome face will make him a favorite.

The defeat of Mr. Boardman for Attorney-General was rather a surprise, but it could hardly have been helped when Eureka only asked for that one office, and presented such a good name as that of Mr. Davenport for the place.

The nomination of Charles S. Preble of Reno for Surveyor-General was a message to young men. It said: be honest, be industrious, improve your minds, keep good company, and the Republican party will appreciate you. It said bright young men can look with confidence to a recognition of their efforts to rise by faithful work.

Mr. Bicknell will undoubtedly run ahead of his ticket, for the Supreme Bench would be crippled without him, and everybody wants that body to have every opportunity to do its work speedily and well.

Mr. Young made some remarks worthy of one beyond his years in his speech before the convention. Many of us who have made failures, or partial failures, of our own lives hope to reach higher levels with our children, and live a more useful and noble life in their careers. It may be that it is the life's work of some of us to bring up future leaders of men, in thought or action, and too much importance cannot be attached to the work of educating them. In this the great spirit of the Republican party rises like a white giant compared to the mean methods employed by other parties.

Last, but not least, comes the gallant Harlow. One of the princes of the State, so far as good nature and true manliness go, a thorough mechanic, of artistic taste and perfect acquaintance with every detail, beloved by his fellows, respected by his acquaintances and honored by all, he will not be found behind in the race, though he is mentioned last on the ticket.

During the week ending Saturday last 428,000 standard silver dollars were issued from the mint.

## AMERICAN AUTHORS.

John W. Lovell Co., New York, have in preparation a new novel by Chas. M. Clay, author of "Baby Rue," "A Modern Hagar," &c., entitled John Wynd's Wives, that it is expected will make a sensation. The incidents are founded on fact, the scenes being laid in New Orleans and Chicago, and we believe some of the actors in them are still residents of the latter city.

They have also in press a new novel by Miss Margaret Lee, well known as the author of "Larmier and Wife," "Dr. Wilmer's Love," "Lizzie Adriance," &c., entitled "Divorce," in which the author fully sustains her reputation as a delineator of American society life, and at the same time showing the great injustice of the complicated divorce laws now in force, urging the necessity of one uniform law applicable to all the States alike.

Both these novels will be published in handsome 12mo. size, and large type, at the extraordinary low price of 20 cents in paper, and 50 cents in cloth. This is a new departure to place the writings of American authors on the same footing as regards price as the foreign reprints; and we are curious to see in how far it may be a success; that the high price of American novels, works injustice to American writers, has long been felt; and we therefore hope—both for the benefit of the authors and the reading public—that the Messrs. Lovell may be successful in their new venture.

## ANOTHER DANGER AVERTED.

A telegram says a gentleman who sustains very confidential relations with Secretary Folger, returned to Washington to-day from New York, having made a pretty thorough canvass and talked with the leading politicians of the State. He stated to his friends that it seemed to be the general belief that the Secretary would receive the gubernatorial nomination on the first ballot and that his election was a foregone conclusion. He was popular with the masses of the people, Stalwarts and Half-Breeds, and his candidacy would insure unity in the party and a reconciliation of past differences. The Secretary has not swerved from what he considers his duty in this matter, not making any personal appeals for support, but was contenting himself with a good visit at Geneva, N. Y., with his family. There was no doubt entertained but Judge Folger could sweep the State against any Democrat that might be opposed to him for both wings of the Republican party would work earnestly for his election.

The nomination of Adams ought to set at rest the suspicion of treachery on the part of any part of the Republican party. Absurd stories have been started that influential parties wanted Mayne to be nominated, but now it is plain that there is nothing in them. Republicans can all work together with perfect confidence.

The Democratic ticket nominated at the Eureka Convention is, in some respects, the weakest ever put up by that party. Public Printer Rounds has given notice that he will resist Mahone's attempt to assess the Government printers. The first of the three per cent. bonds were issued from the Treasury at Washington Monday afternoon. The Carson Tribune thinks the Republican ticket is a young man's ticket.

## FOREIGN TELEGRAPH.

An American Mayor in Ireland. DUBLIN, Sept. 7. The Lord Mayor gave an entertainment this evening in honor of Mayor Harrison of Chicago. The affair assumed a political character. A toast to the Queen was cordially received by all the company except a few who refused to drink it. The Lord Mayor, in proposing the health of Mayor Harrison said: "The entertainment is intended as a significant compliment to the people of America and as a personal compliment to the Mayor of Chicago." The health of Mayor Harrison was then enthusiastically drunk. In response to a toast Mayor Harrison said: "The Irish in Chicago have learned to love liberty itself, but also the very name of liberty; hence, when the news came of Ireland struggling for freedom, there was but one feeling in Chicago, namely, the hope that Ireland would at last be free." In view of what England had done to abolish slavery, he hoped to see the shackles of slavery broken from the limbs of the Irish people. There was, he said, only one sentiment in America, especially in Chicago, and that was one of sympathy with struggling Ireland. At the conclusion of Mayor Harrison's speech the Assembly rose and cheered him.

Press Dispatches to EVENING GAZETTE.

## EASTERN DISPATCHES.

**Vermont Politics.**  
WHITE RIVER JUNCTION, Sept. 7. Returns have been received from 174 towns, which give Barstow (Republican) a majority over all of 16,438, with 66 towns not yet heard from. The same towns give Farnham a majority over all of 18,573. Returns from 77 towns in the first district, give Stewart (Republican) a majority of 6,759 with 33 towns not reported. Grave doubts are entertained by Poland's friends regarding his election. Town representatives in 166 towns give 135 Republicans, 51 Democrats and 4 No Choice. This already gives the Democrats nearly double the representatives they had in 1890. No authentic information received regarding the Senatorial vote.

**The Greenbackers' Convention.**  
SAN FRANCISCO, September 7. The Greenback Convention reassembled this morning. The Committee on Platform reported that the platform was reaffirmed that was adopted by the St. Louis convention of March last, of which it is practically a reproduction with the addition of a clause favoring the Sunday law in a modified form. The convention proceeded to consider the resolutions submitted, and will probably devote the day to it, as each resolution gives rise to arguments and offered amendments—debate occasionally becomes hot and caustic.

**A Rich Mine Found.**  
GALVESTON, Tex., September 7. A special from El Paso says: Three young men have discovered a gold mine 60 miles north of this place in the Orga mountains. News of the discovery is fully confirmed. A piece of ore weighing two pounds contained \$130 worth of precious metal. A shaft has been sunk seven feet to the vein, which is three feet wide. One ton of such ore would be worth \$150,000. Everyone is wild with excitement.

**Silk Culture in New Jersey.**  
NEW YORK, Sept. 7. The New York Silk Exchange is establishing a colony for the cultivation of silk in New Jersey. It has not yet been fully determined where this will be done, but it will be within 25 miles of New York City. Six families, composed, with one exception, entirely of women who have been teachers in the public schools, have already expressed their intention of joining the colony.

**Texas Storms.**  
ST. LOUIS, September 7. Passengers on the incoming trains report another great rainstorm in Western Texas, which prevailed for 36 hours prior to last night, and four serious washouts are reported on the Texas and Pacific road between Big Springs and Taysah. Trains will be delayed, but it is thought not very long.

**Bunko Bunkers.**  
MINNEAPOLIS, September 7. Judge Newcomb, a prominent citizen of St. Louis, was induced to visit a bunko shop and play away \$30,000. The victim captured one of the swindlers on the street to-day and held him until the police arrived. He proved to be the notorious Doc Boggs.

**Fatal Railway Accident.**  
WHEELING, W. Va., Sept. 6. An engine on the Baltimore and Ohio railroad struck a wagon one mile from Barnesville, Ohio, to-day and fatally injured Mrs. Mary Kennard, Miss Steere and Chas. Steere. Lemuel Jueste was thrown over the pilot and carried to town on the engine, scarcely scratched.

**A Wreck.**  
FRANKFORT, Mich., Sept. 6. Yesterday and to-day wreckage from an unknown steamer came ashore. It consisted of the port upper cabin painted white, containing three state-room windows with painted blinds, a door or two and some miscellaneous pieces of the ships upper works.

**Stolen Bonds.**  
NEW YORK, September 7. It is stated that a man answering the description of B. G. Seymour, recently arrested for complicity in the robbery of \$34,000 in securities from a safe in Boston, disposed of \$20,000 of the bonds in Philadelphia.

**Another Negro Hauler Disposed of.**  
NASHVILLE, Tenn., September 7. Mrs. Sarah J. Young, a respectable woman aged 46, was outraged last Saturday near Union City by a negro named Winslow Wade. Last night a mob of a hundred men hung him to a tree.

**A Straw.**  
WHITE RIVER JUNCTION, Vt., Sept. 6. The election of the Republican nominee on the State ticket and Congressional ticket in the First District is assured by a handsome majority.

**Montana Prairie Fire.**  
HELENA, M. T., September 6. Indians have fired the prairie in the Sand Coules and Freeman creek region in Northern Montana, and the whole

country is ablaze. It is a great stock region, and cattle are being driven before the conflagration in immense herds. The winter range for a scope of many miles is in danger of being destroyed, which would be a severe blow to the stock interests of Northern Montana. The Piagnans are supposed to have set the fire as 1,500 of them are away from their agency. They refuse to return unless the Government increases their rations.

**Nebraska, or, Cubackers.**  
LINCOLN, Neb., September 7. The Greenback labor State Convention yesterday had only about 50 delegates. Colonel Pane, the Chairman, addressed them on the necessity of controlling corporation power. After some discussion it was resolved to meet in joint State Convention on the 27th of September. Hearings, with the farmers alliance and the anti-monopoly organization of the State ticket will be nominated.

**Florida Conventions.**  
JACKSONVILLE, Fla., August 7. A Quincy special says that at the Republican Convention a resolution endorsing McKinnon, Independent candidate for Congress, was not acted upon. Another convention was held, in which eight counties were represented, who unanimously endorsed McKinnon.

## WESTERN TELEGRAMS.

**THE EUREKA CONVENTION.**  
The Democratic Target Ready For the Republicans to Perforate—Canvass Not Entirely Forgotten—The Ticket Completed.

EUREKA, September 6. After recess the temporary organization was made permanent. Great interest is manifested in the meeting of the convention.

A large proportion of the delegates are in attendance. The Opera House is crowded with people.

**TRYING TO HARMONIZE.**  
Fears were entertained this afternoon of dissensions within the party which would breed trouble at the election, but these are happily removed and whatever nominations are made it is now felt sure that they will meet with the hearty support of the entire Democratic party. Every effort is being made to harmonize all interests and thereby secure as strong a ticket as has ever been put in the field in Nevada, if not the strongest.

D. E. McCarthy, Chairman of the Committee on Platform and resolutions, read the committee's report.

## THE PLATFORM.

Reaffirms the principles of the Democratic party, as announced in the platform of last National Convention, affirms that railroads should be made to pay their just burdens of taxation, calls for the passage by Congress of the Regan bill, and of laws by the State Legislature to regulate fares and freights on the railroads within the limits of the State. It is resolved that the financial condition of the affairs of our State require the calling of a Constitutional Convention to reduce expenses in the State and County governments; that a State Board of Equalization should be created for regulating and fairly adjusting taxable values; that we condemn the persistent efforts of the Republican party to destroy our dominant interest in their attacks upon silver, and that we arraign the Republican party for its broken promises to the people and gross extravagance in the disbursement of public moneys; that, although Congress has thus far turned a deaf ear to the oft-repeated demands of the people of Nevada for governmental protection against the outrageous charges of the Central Pacific Railroad, we reiterate our demand for the passage of the Regan bill. We assert that the maximum rate now permitted by our statutes of 20 cents per mile for each ton of freight, and 10 cents per mile for each passenger carried by railroads between points within this State is an exorbitant rate, and should be reduced at least one-half; that the State Legislature should protect the individuals and localities of the State against unjust discriminations; that from all nominees to the Legislature a solemn pledge should be exacted that they will, if elected, faithfully carry out the resolution for the passage of laws to regulate freights and fares; that Senator Fair and Congressman Cassidy are entitled to the thanks of their constituency for their faithful and efficient labors in Congress, that the platform adopted by the Republicans of this State and their candidates nominated by their convention at Reno, fully warrant us in charging that both the platform and ticket have been concocted at the dictation and in the interest of the railroad managers, and we challenge a comparison with the State platform and candidates of the Democracy.

**ADAMS THE CHOICE.**  
Jewett W. Adams was put in nomination by C. H. Patehen of Lincoln county in a brief speech.

The nomination was seconded by Senator McConnell of Humboldt in a highly eulogistic speech, in which he said that he had watched Adams while in the Senate and Adams had always voted for the people as against the Bonanza Kings and the corporations.

H. T. Cresswell of Lander also seconded the nomination, assuring a big majority for Adams from this county. Warren J. Sheridan of Storey county,

a warm supporter of Captain Matt Canavan, moved, amid thundering applause, that the nominations close and that Adams be declared the nominee by acclamation.

CASSIDY HAS NO OPPOSITION.  
Hon. George W. Cassidy was nominated for Congressman, and in response to loud calls for a speech, outlined in so able manner the Democratic fight in the ensuing campaign.

**FOR SUPREME JUDGE.**  
Colonel M. N. Stone of Virginia City was nominated for Justice of the Supreme Court by acclamation.

## TO-DAY'S PROCEEDINGS.

EUREKA, September 7. The following judicial nominations were made to-day: Third District—W. M. Seawell of Lyon. Fifth District—W. C. Grimes of Churchill. Sixth District—Henry C. Rives of Eureka. All were nominated by acclamation. J. W. Richards of Churchill was nominated for Secretary of State, and P. J. Dunne of Storey for Controller, by acclamation.

A lively breeze sprung up when the State Treasurer was reached. Dennis nominated Shepherd of Elko and McConnell nominated Otey of Storey. McConnell charged Shepherd with complicity with the railroad and of being untrue to his party. The vote stood—Shepherd 71, Otey 39. Nearly all the Storey delegation voted for Shepherd. The members from Washoe were for Schooling.

George W. Merrill was nominated for Attorney-General by acclamation and L. Ham of Humboldt for Clerk of the Supreme Court. This takes Ham out of the road of the brother of Dennis McCarthy for State Printer.

For Surveyor-General, George Ernst of Nye was nominated by acclamation. For State Printer, A. J. McCarthy was nominated by acclamation.

For Superintendent of Public Instruction, A. E. Kaye of Eureka, was nominated by acclamation.

T. J. Bell of Nye and William Burke of White Pine were placed in nomination for Lieutenant-Governor. The first ballot stood as follows: Bell 55, Burke 54; second ballot Burke 60, Bell 49. Burke was declared the nominee.

EUREKA, Nev., September 7. The convention elected Canavan Chairman of the State Central Committee.

## A DREADFUL DEATH.

A Young Man Dashed Against a Stone Wall in Trying to Board a Train.

This morning shortly after daylight Walter Ware and Johnny Murray found the body of a man lying in the culvert under the railroad track in front of R. Smith's house. The head was lying in a pool of blood and the shoes were torn considerably. One of them was found by Mr. Hibbard on the track over a hundred feet east of where the body lay. The toe was out by the pressure of car wheels and the pieces were scattered along for some feet, still east of where the shoe lay. Marks of some heavy body showed in the sand south of the south rail and probably told the sad story of the dreadful tragedy. He had undoubtedly walked up to the place where his body was found and tried to jump on to the step of the baggage or express car of No. 2, last night. She was a couple of hours late and went out faster than usual. The young man caught with his hands, but his feet failed to reach the step, and he was dragged over a hundred feet, part of the time raising himself up and dropping back so that his shoes caught between the trucks and the ties or ground. One got under the wheels and was torn off, the other having the heel partly torn loose. When the car reached the culvert his body swung clear of the ground and broke his hold. The speed acquired threw him violently against the rough rocks in the west wall of the culvert and he crushed his skull. He was dressed in a new brown coat and vest, gray pants and new buckle shoes. His hat was missing. He is a heavy set young man with red hair and moustache. Nothing was found in his pockets to identify him. They contained a half-pint bottle full of liquor, a few cigars, a comb and tooth brush, and a waiter's white apron. The body was hardly cold when found. Subsequent inquiries revealed the facts that

## THE LITTLE STARS.

The brilliant diamonds of the Autumn sky—The Harvest Moon, etc. Venus is still the evening star. In December it will pass between us and the sun, when observations of the event will be photographed and measured by the astronomers of every country. Mercury is also an evening star and Jupiter a morning star. Saturn is also a morning star. It rises about 11 o'clock. The crowning glory of Autumn will be the harvest moon, which falls on the 27th of September at midnight. The sky in the early morning now presents a charming picture, the beautiful scene amply repaying the early riser for the effort required in order to witness it. Saturn leads the starry host as he mounts to the meridian. He is in line with the glimmering Pleiades, while ruddy Aldebaran glows below him. The princely Jupiter appears farther north than his brother planet, heralded by the brilliant Capella, and followed by the mighty Orion. It is seldom that the planets are attended by a court of such eminent rank, and every lover of the stars should behold the fascinating spectacle at least once during the month.

## THE LITTLE STARS.

The coroner called a jury and Dr. Bergman examined the body this afternoon. The case was then postponed until 10 o'clock to-morrow.

## A Big Block of Coal.

The Silver State of the 2d inst. says: Yesterday a block of coal, 4 feet wide, four feet high and 10 feet long, weighing 12,000 pounds, was taken west on a flat car, on the way to the Denver Exposition, where it is to be exhibited. It was taken from a coal mine in Utah, owned by the Denver & Rio Grande Railroad Company, who are now building a road from Salt Lake City east, to intersect their line to the Rio Grande. The company is at war with the Union Pacific, and rather than patronize or accept a favor from that road, they sent the coal, which was mined within a few hundred miles of Denver, north on the Utah Central to Ogden; thence west on the Central Pacific, to Lathrop, California; thence south to Yuma, and east to New Mexico, on the Southern Pacific; and thence north, on their own road, to Denver.

## A Ship Explodes.

Nature tells of the Italian ship Francesco, loaded with rice, putting into port on May 11, at East London, leaking considerably. A large force of men was at once put to work to pump out the water contained in her and to unload her; but, in spite of all the activity exerted, the bags of rice soaked in water gradually and swelled up. Two days afterward, on May 13, the ship was violently burst asunder by this swelling of her cargo.

## Give Them More Room.

The road north is in very bad shape. Drives of cattle and sheep passing over it all summer, have filled it with rock on the hills north of Reno. A good man would in two or three days improve it immensely, and it should be done before Fair time by all means. Reno's northern neighbors deserve the best of treatment for they have been good friends to her.

## Can the Truckee Beat It?

A shingle packing contest for a \$300 prize was lately decided at Saginaw, Mich. Jack Lyons gained the victory, after 10 hours of steady and rapid work, with a score of 59,250. He was closely pursued by Robert Scott, who packed 59,100 shingles.

H. F. Osborne of the Free Press went to Bodie this morning.

## TAHOE'S CHARM APPRECIATED.

California's Rich Cities-as Building Summer Homes on its Shores. Judge J. H. Applegate of San Francisco is building a handsome Summer residence in a beautiful spot on the southern end of Lake Tahoe near the Tallac House. He has a grove of noble trees and a rich green sward that far surpasses any of the costly artificial parks. The ground has been raked and every burr and pine needle removed and burned. A lawn 200 by 116 feet extends from the front of the house to the water's edge and a substantial wharf runs out to 8 feet of water. Next year the Judge will build a cottage for his son. There are several fine Summer cottages already built on the lake, Idle Wild, and the cottages of Mr. Birdsell and Mr. McCannell near to hand, and Sunny Side a mile north, on the western shore being the most popular. Professor Pomeroy of the San Francisco law school will build west of the Judge's place, and Harry Stevenson of Los Angeles is expected next year to occupy a handsome 50-foot lot on the east side of his lot. By the way Judge Applegate has what is claimed to be the

FINEST COLLECTION OF CRYSTALS. In the world, at his home in the Baldwin Hotel, San Francisco. He has quartz crystals with 18 faces. That is six sides and six perfect faces at each end, something almost unknown except in one place in New York State. California is full of crystallized quartz which has six sides and one end perfect, the other end running into rough rocks uncrystallized. The Judge's collection includes several crystals containing drops of water and one has two black streaks through it from end to end, looking exactly like hairs. The collection is very large and valuable for its intrinsic value, but more so from association. There have been large offers made for it, but money will not buy it. It also includes a genuine

DIAMOND FOUND AT TAHOE. By the Judge himself on July 1st, of this year. It weighs three and a half carats and is to be cut. It is pronounced by experts to be the real thing. It was picked up on the shore at the south end of the lake. It is said that J. F. Moody & Co. of Truckee are going to put on a new steamer next Spring, to run 17 miles an hour, which will make two trips around the lake every day, once going from Glenbrook or Tahoe City in one direction and the next trip in the opposite direction. The Stanford makes only eight miles an hour but it is said that she will be rebuilt this Winter and her machinery put into a better shaped hull so that she can make fast time. She has the power to run a very fast boat of the right shape.

## Woman's Devotion.

A woman, apparently about 35 years of age, dressed in black, and the possessor of a sweet but melancholy face and an attractive figure, arrived at Carson yesterday and an Appeal reporter learned that the woman had just arrived from Oregon to visit a convict in our State Prison. She and the convict became betrothed some dozen years ago in Portland. A short time after the betrothal he went to the eastern part of this State and promised to return to the subject of his heart's affections within two years at the outside. One night he became engaged in a quarrel during which he killed his antagonist, and he was sentenced to a very long term. It is said that the unfortunate woman has never seen her betrothed since the day he left her bed, nearly 12 years ago. She comes here for no other purpose than to see and endeavor to do something for him.

## Well Satisfied.

The Tribune says Ormsby was well treated by the Reno Convention, securing four nominations, viz: Lieutenant Governor, Clerk of the Supreme Court, Treasurer and State Printer. The latter, however, hailed from Storey.

Joe Pratt, who fell from Mr. Lee's new stable recently, is quite recovered. Everyone who saw his head at the time believed that the skull was broken, but they were deceived by a wart sticking up through the hair which looked exactly like a bit of brain. The wart came off when the wound healed.
